a = data not applicable because category does not apply; y = data included in other category or column of the table.

■ Table 2.1.17 7 / 7

Expenditure by educational institutions per pupil/student in equivalent US dollars converted using purchasing power parities, by levels of education and state¹

- 1 According to the ISCED classification: International Standard Classification for Education 2011. For older data according to ISCED 1997 see archive table 2.1.7. For data on early childhood education (ISCED 2011) see table 2.1.23.
- 2 The year specifications may differ from the years of reference. For a detailed specification see source.
- 3 Year of reference 2020: upper secondary education includes information from vocational programmes in lower secondary education.
- 4 Primary education includes data from pre-primary (ISCED 02) and lower secondary education.
- 5 For a precise allocation of which states were included in the calculation of the OECD average in the individual reporting years, see the respective edition of "Education at a Glance".
- 6 Average of the states of the European Union (for an exact allocation see source). 2017: EU23 average; as of 2018: EU22 after the United Kingdom left the EU.

Last update: September 18, 2023
